

# Managing SME Organizations with SAP® Solutions

## Before: Challenges

- ❑ Lack of monitoring and tracking field inspectors' activities
- ❑ Scattered data. No central repository for this data
- ❑ Difficulty in tracking finances in the organization

## Why SAP and R.S. Infonet?

- ❑ SAP Business One encompasses modules that are important to run a healthy business
- ❑ SAP Business One is specially designed for SMEs and a single integrated platform makes us take effective and positive decisions for the organization.
- ❑ R.S. Infonet helped us choose the right software for running our organization successfully. Their round the clock service is highly impressive and they are a dream SAP partner for any organization.

## After: Value-Driven Results

- ❑ Real-time sales, purchase, inspection and finances improved functions across the organization
- ❑ No more pending data, hence better and faster decision making in the organization
- ❑ Monitoring daily inspection activities on our finger tips.
