

# Managing SME Organizations with SAP® Solutions

## Before: Challenges

- ❑ Lack of inventory for products that made tracking near to impossible
- ❑ Manual errors were more due to incorrect counting and lack of interaction
- ❑ No common platform to integrate various departments in the organization
- ❑ Growth and profitability hampered due to lack of correct decision making

## Why SAP and R.S. Infonet?

- ❑ SAP Business One is highly recommended for SMEs as it is reliable and is available at an affordable price
- ❑ Data analysis and status readily available in desktop and mobile based applications at the same time
- ❑ R.S. Infonet has proven to be the best development, implementation and support partner. We strongly recommend their services.

## After: Value-Driven Results

- ❑ Real-time sales, purchases, and finances improved functions across the organization
- ❑ Orders and Purchases can be tracked at the click of a button
- ❑ Organization experienced noticeable growth in the past few months post implementation of SAP B1
